

**Low Volume Consumer or Designated Consumer
Declaration Form for Multi-Unit Residential Premises**

In 2004, the Ontario government set new commodity prices for electricity. This change was an important step toward establishing a pricing structure in Ontario that more closely reflects the true cost of electricity and encourages customers to conserve.

The first 600 kilowatt hours (kWh) (during summer months) or 1000 kilowatt hours (kWh) (during winter months) consumed in any month by residential, low-volume and designated consumers will be priced at 6.8 cents per kWh for the electricity commodity. Consumption above that threshold will be priced at a higher rate of 7.9 cents per kWh.

Pursuant to the Regulation filed under 79.4 (1) (a) of the *Ontario Energy Board Act, 1998*, where the account of a low-volume consumer or designated consumer relates to:

- a property as defined in the *Condominium Act, 1998*,
- a residential complex as defined in the *Tenant Protection Act, 1997*, or
- a property that is owned or leased by a co-operative as defined in the *Co-operative Corporation Act*,

The conservation threshold for that consumer is determined based on the number of units within the property or complex. In order to determine the appropriate conservation threshold, consumers must provide a signed declaration attesting to the number of units to which an account relates.

If you qualify for a conservation threshold, which is more than 600 kWh or 1000 kWh/month (e.g. because there is more than one unit associated with your account) you must complete this form and send it to our office by fax/mail. Your account will be adjusted upon receipt of this signed and completed Declaration Form. Any delay in processing as a result of missing or inaccurate information on the form will NOT result in adjustments to previous billings. If you have multiple accounts eligible for a higher conservation threshold because there is more than one unit associated with your account, list each account separately. Do not include units that are metered or billed separately from the account referenced.

You must advise us in writing if your account ceases to qualify for a higher conservation threshold or if there is a change in the number of units within the property or complex.
